

DC-903

DATA COMMUNICATION  
CONVERTER

Description

The mature and stable wireless communication protocol is adopted, which has the advantages of high stability, high performance, high confidentiality, short delay, low power consumption, etc.

Product Specification

Operating frequency:	400-450MHz
Gain:	16dBm
RF input:	N female
Date communication port:	RJ45
Power supply:	Data line and power line integrated power supply
Material:	Black anodized aluminum(package)
Weight(g):	About 150g
